

**DooDoo Voodoo works** — even on areas where you've previously used other products that failed. If you've been disappointed by disinfectants, bacteria- or enzyme-based products, home remedies, cover-ups or professional carpet cleaners' attempts, you'll really love DooDoo Voodoo. Its largely "green" ingredients start a process that consumes the sources of organic odors, leaving behind nothing but a temporary hint of a fresh, citrus scent.

DooDoo Voodoo is a proprietary mixture of primarily natural and biodegradable\* domestic and imported ingredients. We painstakingly blend them to an exacting formula that customers say yields vastly superior results compared to other products they've tried. Users report that DooDoo Voodoo's ingredients are well tolerated by people & pets, and that DooDoo Voodoo has even removed 8-year-old stains that multiple professional carpet cleaners had failed to get out.

- Highly effective at deterring pets from resoiling.
- Works so well that it can often salvage "trashed" carpet & pad you might otherwise have to replace.
- Great on carpet, upholstery, hardwood floors, tile, countertops, clothing, car interiors (incl. spilled milk), etc.
- Can be sprayed directly on cat litter to extend its life between changes. Great for deodorizing litter boxes.

DooDoo Voodoo is sold in two forms: **RTU** (ready-to-use, pre-blended) and **Concentrate** (to which you add your own warm tap water). Concentrate will save you money in the long run, and each quart of Concentrate makes enough RTU to fill the sprayer bottle up to 64 times (depending on dilution ratio). Customers appreciate how affordable DooDoo Voodoo is, which is why many of them buy over and over again for years. Read our testimonials!

DooDoo Voodoo is in daily use at vet clinics and animal care facilities, successfully eradicating odors that bleach and veterinary-use-only chemicals fail to remove. **Try DooDoo Voodoo today. You'll absolutely love it like thousands of others do!**

**NOTE:** Up to the limit allowed by federal tax laws, proceeds from the sale of DooDoo Voodoo are used in the fight against pet overpopulation and to help improve needy animals' lives, so you're getting a superior product and supporting a very worthy cause at the same time. Thank you for your help.

As with any behavior change in your pet, inappropriate elimination should always be evaluated by your veterinarian to rule out a medical cause.

**• DooDoo Voodoo Is Extremely Easy To Use**

No blotting, vacuuming, covering with moist towels or injecting with hypodermic needles. Spray It, Leave It, Love It!™

**• Really Versatile. It's Not Just For Carpet!**

Use it in your washer instead of laundry detergent. Deodorize your car. Clean your hardwood floors, countertops, garbage cans & lots more. Use it with your carpet cleaning machine.

**• No Harsh Chemical Smell Like Other Brands**

Customers love the slight, natural-citrus scent. No industrial-strength chemical smell or overpowering perfume fragrance. As a vet tech reported to us, "It just does its job, then it's gone!"

**• Tons Of Benefits vs. "Bacteria" Products & Even Works Where Other Products Have Already Failed**

One of DooDoo Voodoo's biggest advantages over other brands is that it will still work great on a stain or odor even if you've already applied other products or home remedies to the area. Plus, it goes to work immediately, unlike other products that can take days to start working. Lasts on the shelf for years. Repeat customers feel that NOTHING beats DooDoo Voodoo's features or value!

**Product Advantages**

- Ready-To-Use  Concentrate  Qt.  Gal.

**Directions:** Before beginning treatment, locate soiled areas with a DooDoo Voodoo Blacklight, which customers say is more effective than other brands at highlighting soiled areas (we believe this may be because it emits a better frequency of ultraviolet light than others). Be sure to scan the walls, too, including where pets may have stood on furniture & soiled.

• **RTU DooDoo Voodoo:** Apply directly from the bottle by pouring, spraying or, on hard, water-safe surfaces, wiping with a clean, soft towel dampened with DooDoo Voodoo. On hard surfaces you can let DooDoo Voodoo air dry or let it dwell 5-10 min., then wipe it up (especially on hardwood floors).

• **DooDoo Voodoo Concentrate:** Pour ½ to 3 ounces of Concentrate (depending on your particular odor's severity) into the empty spray bottle, then slowly fill the spray bottle with warm water. To minimize foaming, tip the bottle to the side as you add the water or add the water *first*.

Completely wet the area where the odor originates, ensuring that DooDoo Voodoo contacts ALL the offending waste. Remember that urine in carpet spreads out under the surface of the carpet in the pad & subfloor, so treat an area larger than the spot you see on the surface.

If odor remains after treatment, DooDoo Voodoo did not come in contact with all the waste or has not fully dried. Re-treat, moistening a larger area, or allow 48 hours or more for complete drying between treatments to maximize odor neutralization. It's better to treat a spot twice with a weaker blend than once with a stronger blend, so start with ½oz. per quart and strengthen your mixture if necessary.

For additional usage tips, testimonials, case studies & more, visit [www.doodoovoodoo.com](http://www.doodoovoodoo.com). Thanks for being our customer.

\*Contains natural & man-made ingredients. Keep out of reach of children, follow typical safe-use procedures & use common sense. Test on an inconspicuous area for colorfastness. Keep pets away from treated areas until dry. Use plenty of ventilation; avoid prolonged contact with skin (rinse well); do not take internally (seek immediate medical attention); rinse eyes with fresh water for 15 min. if contact occurs; seek immediate medical attention if symptoms develop or persist. User determines suitability for any particular purpose. Not liable for incidental or consequential damages arising from use or misuse.
