

DooDoo Voodoo took nearly 20 years to perfect & works where other products have failed. Have you tried disinfectants, bacteria-based products or home remedies, but been less than successful? Then you need DooDoo Voodoo! Its nontoxic ingredients literally vaporize the sources of odors, leaving behind nothing but a slight fresh, natural-citrus scent. DooDoo Voodoo's ingredients are nontoxic and safe for use around people and pets.\*

DooDoo Voodoo is a proprietary formula of all-natural domestic and imported ingredients. We painstakingly blend them to an exacting formula that yields vastly superior results compared with all those other products that *claim* to eradicate pet odors...but actually *don't*.

Use DooDoo Voodoo on hard surfaces (it kills many common germs in 5-10 minutes), carpet, upholstery, you name it. Some people even spray their cat litter with DooDoo Voodoo between changes to keep it smelling fresher. Just apply to any surface that's water-safe and let DooDoo Voodoo dry naturally. There's no blotting, vacuuming or any further action required. Nothing could be easier! DooDoo Voodoo is so effective that it can even help some folks not need to replace their carpet & pad. It's great stuff!

DooDoo Voodoo is sold in two forms: RTU (ready-to-use, meaning pre-blended) and concentrate (to which you add your own warm water). Concentrate costs less per application than RTU, and a gallon of concentrate makes up to **64 gallons** of usable product. Now that's real value!

DooDoo Voodoo is in use daily at veterinary clinics and other animal care facilities where it safely & successfully eradicates odors that bleach and specialized, veterinary-use-only chemicals often fail to remove.

**Note:** As with any habit or behavior change in your pet, inappropriate elimination should always be evaluated by your veterinarian to rule out a medical cause.

It's Science, But It Works Like Magic!™

★ All-Natural Pet Odor Evaporator ★

**• DooDoo Voodoo Is REALLY Easy To Use!**

No blotting. No vacuuming. No covering with moist towels. No injecting with hypodermic needles. **Pour it, Leave it, Love it!**™

**• It's Super-Concentrated & Incredibly Affordable**

Each quart of concentrate makes up to **16 gallons** of usable product at just pennies per spot. Nothing is more affordable.

**• DooDoo Voodoo Has No Harsh Chemical Smell**

Our slight, natural-citrus aroma is tolerated well by people & pets. DooDoo Voodoo has no industrial-strength chemical smell or overpowering perfumey fragrance like other brands.

**• It Has Tons Of Benefits Vs. "Bacteria" Products & Even Works Where Other Products Have Failed!**

Unlike bacteria- & enzyme-based products, DooDoo Voodoo will still work great on an odor spot even if you've used other products or home remedies on it. You can use it in your heated carpet-cleaning machine...often instead of your usual solution, which is something you could never do with a bacteria or enzyme product. In addition, DooDoo Voodoo has a virtually unlimited shelf life. Bacteria & enzyme products just don't last.

**Product Advantages**

Ready-To-Use  Concentrate ★  Quart  Gallon

**Directions:** Before you begin treatment, locate any soiled areas visually or with the help of a blacklight (available for less than \$20 at most home improvement & discount stores). Once you fire up the blacklight, the number of soiled areas may surprise you!

**RTU DooDoo Voodoo:** Apply directly from the bottle by pouring, spraying or, on hard, water-safe surfaces, wiping with a clean towel dampened with DooDoo Voodoo. On hard surfaces you can let DooDoo Voodoo air dry or wipe it up after 10 mins.

**DooDoo Voodoo Concentrate:** Pour ½oz. to 2oz. of concentrate (depending on your particular odor's severity) into the measuring cup provided, carefully pour the measuring cup's contents into the empty spray bottle, then fill the spray bottle with warm tap water up to the 32oz. line. (Fill slowly and tip the bottle to the side as you add the water to avoid foaming. If foam develops, let the bottle set uncapped for 15 min. to let the bubbles dissipate.)

You must completely wet the area where the odor originates, being sure to let DooDoo Voodoo contact ALL the offending waste. (Remember that urine in carpet spreads out under the surface of the carpet in the pad & subfloor, so treat an area larger than the spot you see. Also, allow 48 hrs. or more for complete drying.) If odor remains after treatment, DooDoo Voodoo did not come in contact with all the waste, so re-treat & make sure to moisten a larger area. By the way, we've found that it's better to treat a spot twice with a weaker blend than once with a stronger blend, so we recommend you start with a ½oz. per quart ratio and strengthen your mixture from there if you think it's necessary.

For tips about odor control & pet behavior, see our website at [www.doodoovoodoo.com](http://www.doodoovoodoo.com).

Proceeds from the sale of DooDoo Voodoo are used in the fight against pet overpopulation and to help improve needy animals' lives, so you're getting a superior product *and* supporting a very worthy cause at the same time. Thank you!

\*Keep out of reach of children. Follow normal safe-use procedures & test on an inconspicuous area for colorfastness. Keep pets away from treated areas until the areas are dry to the touch. Use with plenty of ventilation, avoid prolonged contact with skin, do not take internally, rinse eyes with plenty of fresh water for 15 minutes if contact occurs and seek immediate medical attention if ingested or if complications from use develop.
